

16.5 Million Colors in 30° and 115° Optics

Description

The Cove RGB by SV is a LED color-changing, light strip with unique triad LED placement for an even consistent color mixing. It creates 16.5 million deep and very bright colors and is ideal for coves, back lighting, edge lighting, effect lighting, casinos, restaurants and nightclubs.

ORDERING INFORMATION

MODEL

SC30RGB - 30° Beam Angle
SC115RGB - 115° Beam Angle

TUBE LENGTH

1FT – Board Length 4FT – Board Length
2FT – Board Length 8FT – Board Length
3FT – Board Length

ENVIRONMENT

INT - Interior

JUMPERS

SC-JMPR6-INT – 6" Interior Jumper
SC-JMPR12-INT – 12" Interior Jumper

PCC HOME RUN

SC-PCC-10FT – 10' Power Control Cable
SC-PCC-20FT – 20' Control Cable

CONTROLLER / PS

SAVICOVE-CNTRL-2 – DMX Controller

Ordering Example: **SC30RGB-1FT-INT-SCJMPR6-INT**

Specifications

Tube Length: 1', 2', 3', 4' and 8' standard lengths

Input Voltage: 24VDC

Optic Angle: 30° or 115°

Maximum Input Current: 170mA per foot

Maximum Power: 4 watts per foot

Maximum Run per Output: 10' runs per output,
40' maximum per controller

Diameter: 0.82"

LED Quantity per strip: 36 per foot

LED Spacing: 1" (25.4mm)

Modulation Input Analog: 0.6 – 5.0VDC

Driver Voltage: 0 – 5VDC

Connector Power Rating: 2.5 Amp

Brightness: 1' = 100 Lumens

Operating Temperature Range:

Minimum -4°F (-20°C) Maximum 122°F (50°C)

Labels: ETL

Warranty: 2 years
