

Specifications:

LEDs: 3 / Module

Color: White – X=0.31 Y=0.32

Power consumption: 0.30W

Volts: 12VDC

Current: 25mA

Dimension: 3.5" L x 0.70" W x 0.47" H

Beam Spread: 120°

Luminous Flux: 6 lm

IP Rating: 67

Catalog No.: M3W25

Description:

LED modules offer a wide variety of lighting applications. It is an ideal alternative to neon or fluorescent tubes that is ready to mount to a flat surface. It adheres to the surface with double-sided adhesive or an integrated flange for screw mounting. Consider this energy efficient solid state light for backlighting, under-cabinets, bookcases, display lighting, accent, signage or OEM. It has an IP rating of 67, allowing for both indoor and outdoor applications.
