

Fiber Optic Step Lights

Low Profile Accent Lighting.

Description

The SL-500 Series Step Lights feature a small, unobtrusive size, making it perfectly suited for low profile and limited space applications such as stairways and display cases. Its small size allows the light and the object or area it illuminates to be the focus of attention. A variety of finishes are available to suit any architectural décor. The SL-500 series is designed to work with End Light fiber.

Specifications

Construction

Fixture housing is made of machined brass or aluminum and finished for lasting beauty and durability. Finishes include natural brass and aluminum, black aluminum and white aluminum. Spring mounting secures fixtures tightly into walls, ceilings or display cases. Compression fitting hold fibers tightly into fixture. 1.375" (35mm) diameter.

Cabling

The SL-500 accommodates 4 strands through 75 strand End Beam fiber cable (see End Beam spec sheet for detailed fiber information)
